

## Taeda – BR - COL A

- Species: pinus taeda - taeda pine - from Brazil
- Sizes: 17,19,22,25/32/35/38/50x75/100/125/150/175/200  
Other sizes available on request  
Lengths: ~2.0-2.5m. Lengths less than 2.0m allowed to maximise container stow though not less than 1.5m and no more than 20% of the volume
- Tolerances: typically: thickness +1mm/-0mm widths +2mm/-0mm
- Finish: sawn
- Moisture: KD target 8% -12% (Max 14%)
- Wane: Mostly without wane
- Pith: Mostly without pith
- Stain: Mostly without stain
- Log source: Typically cut from the wingboards (Outer sections of the log)
- Face: Boards are graded from the best face

COL A will be shipped heavy in 100/125/150mm (per shippers option) but some small volumes of 75/175 and 200mm may be required.

COL A should yield clear sections between a full range of lumber defects.

Typical applications furniture, finger joint material

Note: As timber is a natural resource some variation is typical, it is however expected that a minimum of 95% of each pack will be within the tolerances specified herewith.
